SKILLS

- **Programming Languages**: Python, C, C++, Java, JavaScript, PHP, Kotlin
- **Frontend Development**: HTML and CSS, Bootstrap, React JS, Angular
- **Backend Development**: NodeJS, Express JS
- **Database Management**: MySQL, MongoDB
- **Mobile App Development**: Kotlin (Android), Flutter Flow (Android/IOS)
- **Tools**: Figma (UI design), Git & GitHub, VS Code, Android Studio, Postman (for API testing)
- **Soft Skills**: Problem-Solving Skills, Team Player, Project Management, Adaptability, Time Management, Communication Skills

INTERNSHIP

- **Gokboru Tech Pvt. Ltd**   **Sep 2024 – Nov 2024**
  React Developer Intern
  - Developed 5+ UI components, enhancing user experience.
  - Optimized performance, reducing load times by 20% with efficient code.
  - Worked collaboratively with team of 4 members and mentors to achieve project goals and meet deadlines.
  - Conducted debugging and testing on multiple front-end features, reducing bugs and boost stability by 15%.
  - Demonstrated strong problem-solving skills and adaptability to quickly learn and apply new technologies.

- **Android Developer, KabiraTech**   **Aug 2024 - Present**
  Freelancer
  - Designing and developing 3 mobile applications for KabiraTech using Kotlin and Flutter flow.
  - Implemented responsive and scalable user interfaces, achieving a 30% increase in user engagement.
  - Optimized applications, improving performance by 25% and enhancing cross-platform experience.
  - Utilizing modern tools and frameworks to enhance functionality and streamline development processes.

PROJECTS

- **YouTube Clone**   **Jan 2025**
  Built a YouTube replica with React.js, CSS, and REST APIs, ensuring seamless video playback and interaction.
  Improved API calls by 40%, reducing load times. Integrated search, like, and recommendation features.
  Designed a fully responsive UI for multiple devices.
  Utilized React Hooks to enhance performance, minimizing re-renders by 25%.

- **Movie Site**   **Feb 2025**
  Created a dynamic movie and music streaming site using React.js, CSS, and REST APIs.
  Implemented content filtering, search, and categorized browsing like (Action, Horror, etc.).
  Enhanced API calls by 40% for improved performance. Designed a mobile-friendly UI.
  Used React Hooks and efficient state management to reduce unnecessary re-renders, enhancing the overall user experience.

- **Food Ordering Site**   **Jan 2024**
  Developed a full-stack food ordering app with React.js, MongoDB, and Stripe for payments.
  Constructed a responsive UI, supporting 5+ device types.
  Integrated infinite scrolling, increasing engagement by 30%. Optimized API calls for faster load times.
  Leveraged React Hooks to streamline state management, reducing re-renders and enhancing performance.

CERTIFICATES

- Full Stack Development with React & Node JS – Live (GFG.)   **10 Weeks**
- HTML, CSS, and JavaScript for Web Developers (Coursera)   **22 hours**
- Mastering Data Structures & Algorithms using C and C++ (Coursera)   **58 hours**
- Cloud Computing (NPTEL)   **12Weeks**

LANGUAGE

- **English:** Professional working proficiency.   **Hindi:** Native or bilingual proficiency.

EDUCATION

- **Lovely Professional University (LPU)**   **Punjab, India**
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.3**   *2022 - 2026*

- **St. Francis School (ISC)**   **Varanasi, India**
  Intermediate; **Percentage: 72.5%**   *2022*

- **St. Francis School (ICSE)**   **Varanasi, India**
  Matriculation; **Percentage: 80.4%**   *2020*
